CI/CD Workflow

LEARNING

Spring Boot

LANGUAGES

Hungarian: Native
English: B2

ABOUT ME

Always learning, skilled software developer, who believes software development doesn't end with finding a solution, but rather the optimal one. His unopinionated selection of technologies ensures this philosophy, and brings an always exciting working experience to his daily routine. During his free time, you can probably find him playing a game of chess with one of his friends.

EXPERIENCE

Software engineer | RTS Product Engineering

📅 01 2023 – 07 2023   📍 Győr, Hungary

- Frontend development (React)

Freelancer developer | Self employed

📅 03 2019 – 09 2019   📍 Bük, Hungary

- Desktop software development (WPF/QT)

- Various IT Support services

EDUCATION

Business Informatics BSc | University of Sopron

📅 09 2019 – 02 2023   📍 Sopron, Hungary

Computer Science MSc | Eötvös Loránd University

📅 2023 09 –   📍 Budapest, Hungary

New National Excellence Programme Scholarship Winner

MEMORABLE PROJECTS

Population genetics software

📅 02 2022 – 01 2023

The objective was to improve a biology related, widely used legacy software called STRUCTURE in terms of performance. During this task, I have learned a handful of optimization techniques and had a closer look at **C++** and its ecosystem.
